Summer is on the horizon!

Thank you for your donations! We have some new equipment! We have some **picnic blankets** surrounding tuff trays and lots of **toys** – including dolls, cars, castles and Duplo – which the children are enjoying to play with.

The scooters are popular as ever; our new **timers** means we are learning how to share our time on them.

With the upgrade to our shovels, we are definitely able to **dig** much further!

The orchard is our next project! It's been cut right back, ready for some further play in the summer term.

Can you help?

We are always looking out for more scooters – they really are so popular.

We have heavily cut back our orchard, but we would appreciate some volunteers to help clear out the brambles and thorns that have been left behind.

If you are willing, could you let myself (Miss Santos) or the office know of times and dates available so we can coordinate some time to do this.

Thank you for your continuous support. 😊
